EXPERIENCE ENHANCERS

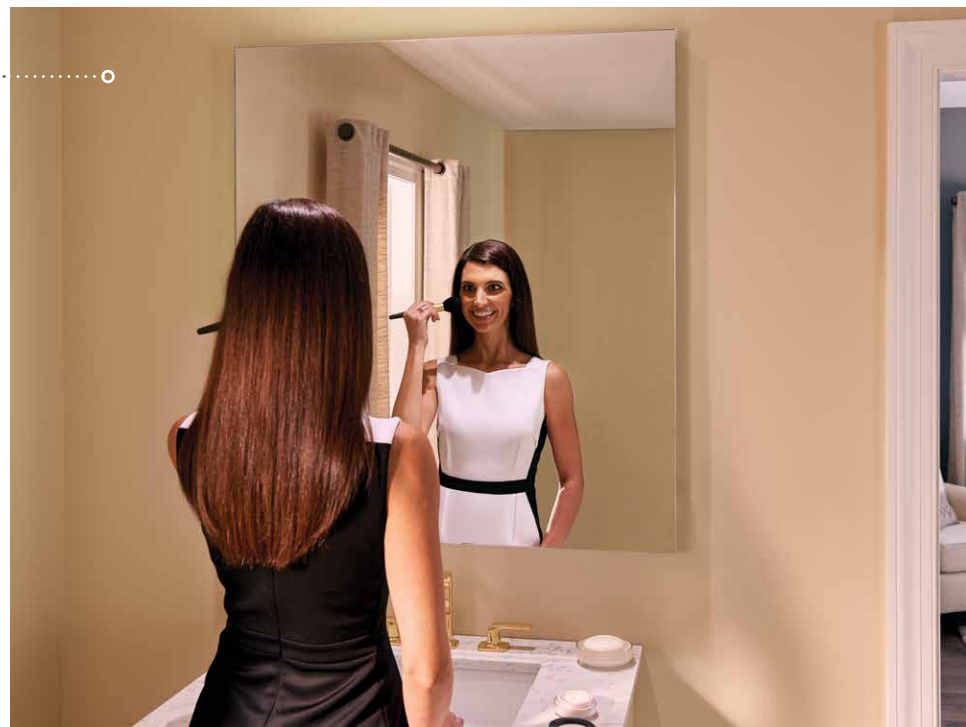

DEFOGGER

With the mirror defogger feature, the temperature rises above the dew point to keep condensation from forming a barrier of fog between you and your reflection.

QUALITY OF LIGHT

Discover how quality task lighting can transform your routine. The Collection offers the best LED lighting output in its class—bright enough for precise tasks, dimmable for a relaxing bath, with precise color rendering and an even, consistent glow.

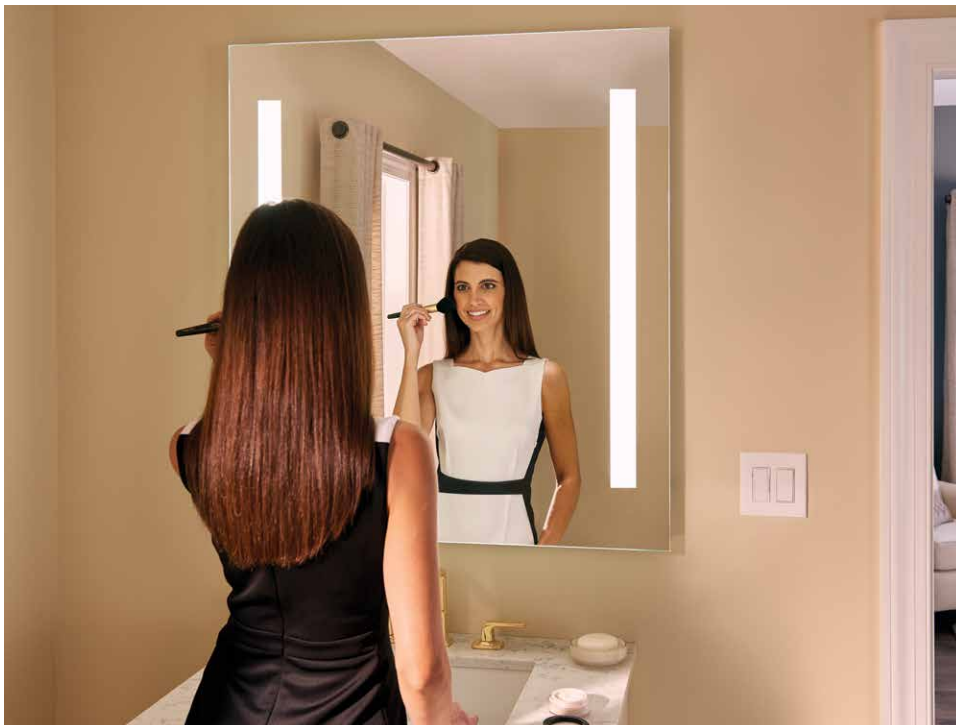

BAD LIGHTING

Experience is at the forefront of everything we produce. Whether it's in our tunable lighting or one-touch mirror control, we believe in pushing the boundaries of design to provide the most exceptional styling experiences.

LED LIGHTING

Whether you want to simulate daylight or bring more dimension to your bathroom décor, light-tuning technology allows you to change your lighting temperature from 3000K to 6500K.

GOOD LIGHTING
